

IMigrationMetadata

DbMigration

Website.Migrations.x

```
graph BT; Website.Migrations.x --> IMigrationMetadata; Website.Migrations.x --> DbMigration;
```

The diagram illustrates a generalization relationship. A box labeled 'Website.Migrations.x' is positioned at the bottom. Two arrows originate from its top edge and point upwards to the bottom edges of two boxes above it: 'IMigrationMetadata' on the left and 'DbMigration' on the right. This indicates that 'Website.Migrations.x' is a generalization or base class for both 'IMigrationMetadata' and 'DbMigration'.
