

IMigrationMetadata

DbMigration

Website.Migrations.addnewtable

```
graph BT; Website.Migrations.addnewtable --> IMigrationMetadata; Website.Migrations.addnewtable --> DbMigration;
```

The diagram illustrates a class hierarchy or implementation relationship. At the bottom, a box labeled 'Website.Migrations.addnewtable' has two arrows pointing upwards to two boxes above it: 'IMigrationMetadata' on the left and 'DbMigration' on the right. This indicates that 'Website.Migrations.addnewtable' implements or inherits from both 'IMigrationMetadata' and 'DbMigration'.
