

IMigrationMetadata

DbMigration

Website.Migrations.SomeChangeIdid

```
graph BT; Website.Migrations.SomeChangeIdid --> IMigrationMetadata; Website.Migrations.SomeChangeIdid --> DbMigration;
```

The diagram illustrates a generalization relationship. A box at the bottom, labeled 'Website.Migrations.SomeChangeIdid', has two vertical lines extending upwards. These lines connect to the bottom edges of two boxes above it: 'IMigrationMetadata' on the left and 'DbMigration' on the right. This structure represents 'Website.Migrations.SomeChangeIdid' as a base or generalization for both 'IMigrationMetadata' and 'DbMigration'.
